

Duct End Gasket

Ø mm	Thickness mm	Weight kg
080	1.016	0,01
100		0,01
125		0,01
140		0,02
150		0,02
160		0,02
180		1.524
200	0,04	
224	0,04	
250	0,05	
300	0,09	
315	0,09	
350	0,12	
400	0,12	

Temperature Rating of Product Components	
° C	Duct End Gasket
107°	Conductive nitrile, a general purpose oil resistant polymer
-34°	

Additional Notes
<ul style="list-style-type: none"> • Temperature range capability: intermittent to 138° C • Performs well with many oil, water, and hydraulic fluid applications • Should not be used with solvents such as acetone, MEK, ozone, chlorinated hydrocarbons, and nitro hydrocarbons • Conducts electricity

Compliance / Rating of Product Components		
Product	Material	Rating
Duct End Gasket	Nitrile	1. ASTM D-2000 M2BG510 A24 B34 E014 E034 EF11 EF21

* The Nordfab QFS Clip and Duct End Gasket are available together as a set
